

ENGINEERING INTERNSHIP PROGRAMME INFORMATION FOR INTERNSHIP CANDIDATES

We invite committed applicants to be enrolled in our Internship Programme. The main objective of this programme is to allow the candidate to gain valuable experience via exposure to various industries and real working environment.

To be considered as Engineering Intern, a candidate must have the following prerequisites:

1. Healthy and able-bodied Malaysians. Foreigners accepted.
2. currently enrolled in any technical/technology/engineering tertiary programme.
3. able to serve minimum 14 weeks but 6 months or longer is preferred.

Interns undergo **HANDS-ON** practical & site training in the following scopes of work:

1. Professional ethics & business communications
2. Technical Design and Drawings
3. Welding, LV wiring, electronics, electrical, civil works
4. HVAC, LEV and ventilation works
5. Maintenance and fabrication works for Industrial Systems.
6. Work Safety, Project Execution and Management

All application to envitech02@gmail.com citing proposed **Starting** and **Ending** date of internship.
